Look for extensions that:

- Request broad permissions (e.g., "Read and change all your data on the websites you visit")
- Are installed outside of Chrome Web Store / Firefox Add-ons
- Have poor or no reviews
- Redirect your searches or show pop-up ads

### C. Use Security Tools

- **Chrome Cleanup Tool** (built into Chrome):  
Go to `chrome://settings/cleanup` and run the tool.
  - Use antivirus software (like Malwarebytes or Windows Defender) to scan for malicious extensions.
- 

## □ 3. Removal Steps
